Unconscious Bias: Girls, STEAM, & Leadership

# 2019

# Unconscious Bias Girls, STEAM, and Leadership

Our increasingly complex global society calls on educators equipped to guide all students, and young women in particular, through an interdisciplinary and culturally relevant perspective.

Join public and private school teachers at Atlanta Girls' School on June 13-14 as we explore stereotype threat, unconscious bias, and gain training to support underrepresented students interested in pursuing careers in STEAM.

Atlanta Girls' School
